

Harel Lesnick

Audio Engineer — Mixing, Mastering & Sound Design

+972 52-808-2831 | inquiries@harellesnick.com | harellesnick.com | Kibbutz Afikim, Israel | Driving licence B + own car

PROFESSIONAL SUMMARY

Sound engineering student at Kinneret Technological College (GPA 90) with 18 released tracks on Spotify, Apple Music and YouTube — produced, mixed and mastered end to end across two very different genres. Combines studio work with hands-on room acoustics: REW measurement, analysis, and treatment I design and build myself. Comfortable solving problems outside my existing knowledge — I research, build, measure and iterate until the result meets the target. Native-level English.

EDUCATION

Kinneret Technological College, Israel — Practical Engineer in Sound (MAHAT diploma) | 2024–2026

GPA 90. Diploma expected 2027. Pro Tools course on the Avid curriculum — final grade 100. Final project: producing, recording, mixing and mastering a full-length album for an artist (in progress).

Core coursework: Mixing and Mastering, Acoustics, Sound to Picture I-III, Game Audio and Sound Design, Live Sound Engineer, Digital Audio and DSP, Psychoacoustics, Audio Transmission, component-level electronics.

Boyer High School, Jerusalem — Film and Cinema track | 2020

PROJECTS AND PRODUCTIONS

"Ani Lo Nosheim" — LP, 10 tracks | 2024

Full production, mixing and mastering. Released on Spotify, Apple Music and YouTube.

"IZ 514" — EP, 4 tracks, Electronic | 2025

Full production, mixing and mastering. Released under the alias aRL.

Singles — 4 tracks | 2024–2025

"Mi Ani Acharei Hakol", Froth, I'M BACK, Pondering. 18 released tracks in total.

Room acoustics — measurement and treatment, three listening rooms

REW measurement and analysis of frequency response and decay. In two rooms the findings were implemented: repositioning of monitors and listening position, plus Helmholtz resonators built and installed, tuned to the problem frequencies identified in the measurements.

harellesnick.com — portfolio site

Built from scratch in HTML, CSS and JavaScript. Three-language i18n system with full bilingual support. Deployed on Cloudflare Pages.

Backup and storage infrastructure — self-built and self-maintained

Full backup system covering all working material, running on two Linux servers: TrueNAS on ZFS and a self-assembled server with a custom configuration. Includes automated encrypted offsite mirroring, retention policy and periodic integrity checks.

Video and photography

One music video, two video-editing final projects and a stills portfolio. Stills photography and lighting setup.

WORK EXPERIENCE

Steimatzky — Sales Associate and Cashier | 06/2023–09/2023

Customer service, register operation, stock handling and shelf management. Alongside this, ongoing support in running a local grocery store (family business) — ordering, inventory and supplier contact.

MILITARY SERVICE

Israel Defense Forces — Quartermaster and Emergency Depot Supervisor | 08/2020–04/2023

Responsible for inventory management, equipment control and readiness of emergency storage facilities.

SKILLS

Studio software: Pro Tools, Ableton Live, FL Studio — advanced. Mixing and mastering.

Acoustics and measurement: REW, decay analysis and modal problem identification, acoustic treatment design and construction, acoustic reporting.

Video and graphics: Premiere Pro, Photoshop, DaVinci Resolve (basic), After Effects (basic).

Electronics and DSP: Reads circuits and components at component level, including their frequency, phase and time response. DSP coursework.

Instrument: Guitar — bass through 7-string.

Other: Basic programming, Linux, working with AI tools for fast problem solving, Office suite.

LANGUAGES

Hebrew — native. English — native level.
